

TELECOMMUNICATION CABLE PITS

The Wade Telecommunications Pit provides a durable precast solution for underground cable connections, with cable access inserts on both sides and a removable timber lid for easy access.

Lid: 3 sections of 200mm wide, 50mm thick wood. Anti-sliding feet under lid to stop it moving off the tub.

Cable access inserts are provided on both sides of the tub, allowing cables to pass through and be joined securely inside.
